

COMPANY PROFILE

WWW.ELECTROMOTE.CO.ZA

Electromote (Pty) Ltd specialises in the supply of low, medium and high voltage electric motors, variable speed drives and soft starters. Our aim is to meet customers demands with innovative technology, the highest standard in product quality, offering dynamic solutions all while maintaining efficient and timeous delivery.

All IE3 low voltage electric motors are designed and manufactured in accordance to IEC60034-2-1 and SANS 1804-1/2 and carry the ExploLabs mark of certification. Electromote's head office is situated in Jet Park, Boksburg with a branch in Middelburg, Mpumalanga.

Electromote holds stock of Cast Iron IE3 electric motors (up to and including 400kW), Aluminium IE3 electric motors (up to and including 15kW) in 400V/690V and 550V/1000V configuration and single-phase light duty electric motors. Electromote carries supplementary variable speed drives and soft starters to provide the customer with a more efficient, tailored solution. Electromote has the ability to supply IE4, IE5 and permanent magnet electric motors should the customer require.

Electromote's medium and high voltage motors, variable speed drives and soft starters are manufactured by the WOLONG Group who have a global manufacturing footprint. Electromote is able to offer standard and bespoke medium and high voltage design electric motors with a maximum manufacturing capacity of 135000kW in 3300V, 6600V, 11000V and 13800V!

Electromote can offer packaged solutions with variable speed drives and associated control and instrumentation in containerised packages allowing a "plug in and play" solution.
